FRUCHTCHIPS
DRIED FRUITS AND VEGETABLES

Drum-dried products

Made from ripe, pureed fruits and vegetables, juices or juice concentrates. Through a gentle, energy efficient drying process we produce colourful, low germ dried products without addition of artificial colours or flavours. The combination of ingredients is as variable as the dried products' structure ranging from crunchy flakes to fine grained powder. Stirred in cold or warm liquid the products are rehydratable to a pasty or pulpy texture.
